

Welcome - when I was first introduced to Lees Ferry in 1982, I fell in love with the beautiful colored canyon walls and the crystal clear water. Not to mention the awesome Trophy Rainbow Trout. I immediately began fishing here on a regular basis and I have been guiding since 1987. There is no other place in the Western United States I would rather be than Lees Ferry. I love the challenge of putting my clients on these beautiful Rainbow Trout.

The water temperatures are consistently 46 to 48 degrees and the food supplies abundant year round - the trout are growing ½" to 1½" per year. Fish up to 21" have been caught and released this past year with an average 13" to 19" fish caught every day.
